

Shooters,
Defensive Shotgun Match.

We will be holding our second Defensive Shotgun Match on Saturday, April 30th. Registration will open at 08:00 and we will have the Safety Brief at 09:00, and start shooting immediately after.

Here is a chance to test out your home-defense shotgun; and your shooting and reloading skills in a match environment.

Due to the ammo shortage and prices, we are keeping the round count to below 50 rounds, with the addition of two slugs. Targets and distances will be set for use of standard 12-gauge, lead, Field and Game loads. Slug targets will be at 50 yards. No steel shot is allowed. As always, round count depends on how well you shoot, therefore bring extra ammo to compensate for misses.

The format will be similar to past pistol and rifle matches, with five stages covering various shooting positions and targets, and some movement. We will be using some of the favorite targets, barriers and props, and will introduce a few new targets. We will use our usual time based scoring method with three divisions – Hunter (5-round and under capacity), Tactical (8-round and under), and Open (competition and detachable magazine shotguns).

Match fees will be \$20 for members and \$25 for non-members, all divisions. An optional 50/50 will be held at the end using a slug.

Please pre-register by responding to this email. That'll make things run a little smoother during registration and give us some idea of how many shooters to expect.
